

**Blue Vinyl Shower Pan**  
**COMPOSEAL**  
**30/40**

**WARRANTY**

Compotite Corporation states that **COMPOSEAL** PVC shower pan liner, **installed as directed** using a 24 hour standing water test to verify a leakproof installation, and using a flexible PVC solvent cement for seaming, should last the life of the building.

**COMPOSEAL 30 and 40** are warranted against failure for any reason, and in the event of failure, replacement material will be supplied at no charge. This warranty applies only to the membrane itself and not to the manner of installation over which we have no control, and it does not extend to consequential damage or other implied responsibility.
