

EPS FOAM SLOPED SHOWER BOARDS

DESCRIPTION

Slope Boards create a code approved slope of $\frac{1}{4}$ inch per foot towards shower drain for installation under Compotite 40 Mil PVC Shower Pan Membrane and thick-bed mortar. Each installation requires 4 pieces of slope board in order to pre-slope toward the drain. Each 2' x 4' Slope Board will be cut in the shape of a triangle with the tapered end (thinner end) being the point of the triangle pointing towards the drain.

INCLUDED IN BOX

2' x 4' Boards
28 Boards per Box
